

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

NATIONAL ENGINEERING COLLEGE

(AN AUTONOMOUS INSTITUTION)

K. R. Nagar, Kovilpatti – 628 503

Proudly Presents...

COMPONEC'16 - YAKSHA

A National Level Technical Symposium

23rd & 24th Mar 2016

An Activity of

Computer Science and Engineering Association

(CSEA)

Sponsored By

FROM THE MANAGING DIRECTOR'S DESK

“If you want to make a permanent change, stop focusing on the size of your problems and start focusing on the size of you!”

It would have been impossible to successfully survive for such a long period and achieve these many milestones without the support of a well versed, highly qualified, experienced and dedicated faculty and staff. All these years have witnessed the success story of our institution in the form of various achievements by our students. We have not only achieved our dream, however, we have made a place in the heart of society as one of the prestigious institutions. This new effort COMPONEC’16 - YAKSHA that has been taken up by the Computer Science and Engineering Department, is a technical event organized by the blooming engineers which is an opportunity to improve their the technical skills and leadership quality. I wish and hope this co-curricular festival will illuminate the minds of the future generation and fulfill the need of the society.

Thiru. K. R. ARUNACHALAM B.Com, M.B.A. (Misso-U.S.A)

MANAGING DIRECTOR

FROM THE DIRECTOR'S DESK

I take great pleasure to note that the Computer Science and Engineering Association is conducting two days National Level Technical Symposium COMPONEC'16 - YAKSHA on Mar 23rd & 24th 2016.

“Success is to be measured not so much by the position that one has reached in life as by the obstacles which he has overcome.”

The highly demanding corporate world has put a lot of pressure on the student community to have multi-facet development. NEC is addressing these issues up-front with extensive Orientation programs, mentoring & motivational lectures, interaction with experts from the industry, soft skill training, participation in co-curricular and extracurricular activities and student participation in managing the affairs of the institution. It is our endeavor to ensure that our students undergo rigorous all round training by our highly qualified teachers so that after graduation, they are ready to face a tough and competitive world and can take the challenges head-on. I wish this symposium COMPONEC'16 - YAKSHA to bring out the talents of the students in a tremendous manner and be a mammoth success.

Dr. Kn. K. S. K. CHOCKALINGAM, B.E., M.Sc. (Engg), Ph.D., FIE,

DIRECTOR

FROM THE PRINCIPAL'S DESK

I am delightful to know that the Computer Science and Engineering Association is conducting two days National Level Technical Symposium COMPONEC'16 - YAKSHA on Mar 23rd & 24th 2016.

“Courage isn't having the strength to go on - it is going on when you don't have strength.”

The development of any Society or a Nation depends upon Engineers. Efficient Engineers are produced from good institutes. A good institute should have a pleasant environment, eminent faculty and fully equipped Laboratories with proper ambience. I earnestly hope that this symposium will provide excellent opportunities to the budding engineers to discuss various issues and latest development in the field of computer science and engineering and share their knowledge during the symposium.

It is a matter of justifiable conceit and honor to publish this energizing and rejuvenating experience of our NECians. I wish this symposium COMPONEC'16 - YAKSHA to be a splendid success.

Dr. S. SHANMUGAVEL Ph.D.,

PRINCIPAL

FROM CSE HOD'S DESK

I appreciate and acknowledge the coalition of the Computer Science and Engineering Association (CSEA) of National Engineering College, Kovilpatti for harmonizing two days National Level Technical Symposium COMPONEC'16 - YAKSHA on Mar 23rd & 24th 2016.

“Success is a vehicle which moves on a wheel called HARD WORK but the journey is impossible with fuel called SELF CONFIDENCE”

I am happy that the students and staff of our Computer Science and Engineering department are conducting an Inter College Symposium COMPONEC'16 - YAKSHA. Discovery consists of seeing what everybody has seen and thinking what nobody has thought. If we did all things we are capable of, we would literally astound ourselves. Do something today that your future self will be proud of. Importing the latest technical knowledge to the student and cultivating, nurturing the same in the right way will make our students competent in the competitive world. This Symposium offers an existing platform for the students to exhibit the knowledge they possess and a good chance to develop the same. I offer my best wishes and heartiest congratulations to everyone who has organized this occasion and wish all the best for the participants in all their pursuits and future endeavors.

Dr. B. PARAMASIVAN M.E., Ph.D., FIE,

HOD / CSE
